## BREAKING NEWS ALERT

### “Hey John, what happened to the Blue Book?”

I have been teaching promotional classes for 20 years, and hundreds of promoted officers later, I know I can do better. Feedback from recent exam takers convinces me that it is imperative to offer the actual books in conjunction with my detailed lectures and study guides. This exam cycle, join the promotional revolution! This is our best preparation program yet!

**THE NEW APPROACH:** A self-contained kit for each book -- featuring:

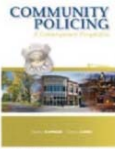

- **A new copy** of the latest edition of the assigned text book
- **A CD** containing an expansive lecture on *each* chapter by Attorney John Sofis Scheft
- **“The Blueprint”** – a detailed outline of important study areas, key diagrams, and exam taking tips.

### WHY IS THIS BETTER THAN THE *BLUE BOOK* AND PAST SEMINARS?

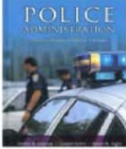

Here are the reasons. Our 2009 program . . .

- **Gives** you much more for your money.
- **Integrates** the actual text books into your study routine.
- **Provides** more detailed lectures to get you through the books.
- **Directs** and reinforces your learning with a study guide.
- **Allows** you to study anywhere, on your own time.
